cannot have conflict, where the safety risk is too great to not be working as a team.

- Q. And that's because it would identify somebody as somebody who has not received the COVID vaccine, correct?
- A. A sticker -- no one else would be wearing a sticker, you know, as opposed to something like a mask, where KN95 masks were readily available by this point. You know, they started as something just healthcare professionals wore. And then there was a run on them. You were paying \$5 a mask.

And by this point, they were pretty standard use in the community.

Q. Over on the third -- third page of the document we were just looking at, this is another email from Scott Kirby, beginning with the paragraph that has the Number 4.

He asks, "Can we just say termination if there's mask violation instead of up to and including subject to your JCBA?"

And then he states, "I'm hoping the policy for group 2 sounds very serious to them. Masks at all times (including outdoors) and automatic termination for violating the policy."

Why would United have wanted to make sure

Page 124

that the mask requirement sounds very serious?

A. Well, again, we have to put ourselves in the context of Delta in 2021 and what was going on.

One, we wanted to make sure that these unvaccinated individuals were as safe as possible while continuing to work.

Two, mask compliance and adherence was a major area of focus because it was legally required in these operating environments to be masked.

So meeting the TSA's requirement was something that was very difficult for our HR and leaders to monitor.

So from a place of what we were doing in terms of during COVID in airports managing mask policy, and then coupled with now having individuals in a Delta variant environment, to keeping them safe, as part of the RAP, would have gone into this statement.

- Q. All right. So to boil that down, safety was one of the reasons that United wanted the mask policy to sound very serious?
  - A. Safety would have been a factor, yes.
- Q. And you'd agree that safety measures should be based on reliable data, correct?
  - A. Reliable data is important, and I think

               So you understood that United would give
     people medical RAPs even if they weren't necessarily
 2
     disabled?
 3
          Α.
 4
               Correct.
 5
          0.
               Okay. Are you claiming any history of
     allergic reaction as a basis for your medical RAP?
 6
7
               No, sir.
          A.
8
               Okay. So in the -- what's called the second
          0.
9
     amended complaint, the first complaint that you appear
10
     in in this case, paragraph 163 states that Mr. Rains
11
     updated his accommodation request on September 8, 2021,
12
     with a form completed by his doctor noting a history of
     allergic reactions, including anaphylaxis, and stating
13
     that he could not take the vaccine.
14
15
               That's incorrect, isn't it?
16
          A.
               Yeah. Where -- is that --
17
                    THE WITNESS: Any recollection?
               I'm like -- I know he can't answer.
18
          A.
19
               (BY MR. MAUGERI) My best assumption, sir, is
          0.
     that there was a confusion between you and Ms. --
20
21
     Ms. Jonas.
               Okay. Yeah.
22
          A.
23
               So -- but I wanted to confirm.
          0.
24
          A.
               No.
25
          Q.
               I thought that was going to be your answer.
```

Page 230 1 You're not claiming any allergies --No previous medical history of that, no, sir. 2 Okay. So just so we have a clear record and 3 0. aren't talking over each other, no part of your medical 4 5 RAP is based on anything to do with allergic reactions, including anaphylaxis? 6 7 A. Correct. 8 And no part of your Americans with 0. Disabilities Act claim in this case is based on any type 9 10 of allergic reaction history? 11 A. Correct. 12 Q. Okay. And so then by definition, you're not 13 claiming, are you, that any history of allergies makes 14 your heart condition, you know, any worse when it comes 15 to taking the COVID vaccine, right? 16 A. I'm confused now because I thought we were 17 talking about two different things, but it seems like to 18 me you're trying to associate allergic reaction with 19 part of my medical claim. I didn't think there was any 20 distinction between either question, so I'm like what 21 are we doing? 22 Q. Yeah, so I just want to be clear about what you're claiming or not. So because you said you're not 23 24 claiming allergies, you're not claiming that there's any 25 kind of interaction between your heart issues and any

Page 231 1 allergies as part of this case, are you? 2 I'm trying to find relevance in the question, man, I mean, because there's nothing that associates me 3 with anaphylaxis allergies or this whatever. That's not 4 5 even relevant to my particular case or part. Okay. That's what I wanted to confirm. 6 0. 7 I'll represent to you that your attorneys have represented in a motion to the Court --8 9 A. Okay. 10 Q. --- that you have both a heart condition and 11 allergies and, when you put them together, it creates 12 even more of a problem. 13 **A**. Okay. That's not correct, is it? 14 0. 15 A. To my knowledge, no, sir. 16 Okay. So your -- your sole medical basis for Q. 17 a RAP is your heart condition, correct? A. Well --18 19 Ο. Okay. 20 -- I do have one other medical condition that 2.1 I didn't even realize at the time. So I'm blind in my 22 left eye, and it's a Coats disease. So it's a blood coagulant problem issue, too, but it's not something at 23 the time that I realized. My sole focus was my heart 24 25 condition.
